What is the Spina Zonke Jackpot Race?

The Spina Zonke Jackpot Race takes place on Hollywoodbets every Wednesday, Friday, and Saturday, between 8:30pm and 10:30pm. The minimum bet to enter the race is R2, and there are hundreds of thousands of rands in cash up for grabs during the race. Even if you only manage to finish 100th in the race you can still expect to pick up a win of R1000 or more. Should you be lucky enough to finish 1st then you'll win between R100,000 and R250,000 depending on the race you enter. The player that places a bet or spin closest to the end of the race will be the winner, and the race can end at anytime during the 2 hour period, and you never know when exactly the race will end.
Secrets to winning a Jackpot Race on Hollywoodbets

Let’s be honest here, most Spina Zonke slot gaming is down to pure luck of the spin. When the jackpot hits it is at a random point during the race. However, there are several things you can do to improve your chances of winning a Jackpot Race. Here are your Spina Zonke Jackpot Race tips.

1. Spin fast, furious, and often. With a time limit in place of 2 hours for most Jackpot races, you must do as many spins as possible to increase the chance that you place a spin when the race ends. Using the auto-spin feature might be your fastest method, better than clicking the spin manually and losing precious seconds.

2. Play the Minimum R2 bet. All Spina Zonke slots allow you to change the bet size, and the minimum bet for the race is R2, so set your bet to R2 a spin rather than anything higher. This way you will get more spins in with your balance, and losing several spins in a row won't deplete your balance as quickly. You'll get a lot further playing R2 a spin then you would at R5.

3. Put on quick spin. Spina Zonke games also have a quick spin feature, which makes the reels spin faster than they normally would. This allows you to get in more spins, which in turn gives you a better chance at having the right spin at the right time.

4. Stay away from Spina Zonke games with features. As mentioned in the Jackpot Race terms you cannot win the race if you are in a feature, so avoid playing games with features, and stick to fast simple games like Lucky Lucky and Wealth Inn.

5. Join the Spina Zonke Jackpot Race late. The Jackpot race is scheduled for 2 hours, and it usually ends during the last hour. You could save yourself a lot of money and spins by joining the race at 21:30 instead of at 20:30, besides if you do miss the race by joining late then you haven't lost any money.

6. If the race goes on for long then get as many spins in as you can in the end. If there are only 15 minutes left in a Jackpot race then you know for a fact that the race will pay out in the next 15 minutes, at which time you should put on quick spin and auto-play, which will give you the best chance of picking up a win.

7. Playing on your PC, try opening a few tabs with different games. If you have access to a PC then try playing a few games on auto play in a few tabs, yes it will be expensive, but you'll be getting many more spins in than other players.
